How to Use These Extra Questions

These extra practice questions for [Class 2 Maths Chapter 2: Shapes Around Us](#) give children more practice beyond the textbook's own activities. These are original practice questions, not reproductions of the NCERT textbook's activities.

NCERT Extra Questions for Class 2 Maths Chapter 2: Shapes Around Us – Free PDF Download

Q1. What shape is a cricket ball?

A sphere.

Q2. What shape is a matchbox?

A cuboid.

Q3. Name one object at home shaped like a cylinder.

Answers will vary — for example, a water bottle, a can, or a rolling pin.

Q4. Will a cone roll if you push it on its side?

Yes, but it will roll in a **curved path** (a circle) rather than a straight line, because only one end is pointed.

Q5. A dice and a brick are both box-shaped. Which one is a cube and which is a cuboid, and why?

The **dice is a cube** (all sides equal), and the **brick is a cuboid** (sides are rectangular, not all equal).

Q6. Why can't a cube roll?

Because all of its surfaces are **flat** — it has no curved surface to roll on, so it can only slide.

How to Use These Extra Questions

Ask these questions out loud and have the child answer in a full sentence where possible. For the full concept walkthrough, see the [Class 2 Maths Chapter 2 Solutions](#), or the [Revision Notes](#) for a quick summary.
