Why These Help

Chapter 9, **Which Season is it?**, covers seasons, months, and simple calendar reading. These practice questions build confidence in recalling seasons, matching activities to weather, and ordering months.

Multiple Choice Questions

Q1. Which season usually comes after summer in most parts of India?

(a) Winter (b) Monsoon (c) Spring (d) Autumn

Answer: (b) Monsoon.

Q2. Which month comes right after June?

(a) May (b) July (c) August (d) April

Answer: (b) July.

Q3. Which of these is a common winter activity?

(a) Using an umbrella (b) Wearing a sweater (c) Wearing shorts (d) Swimming outdoors

Answer: (b) Wearing a sweater.

Q4. How many months are there in a year?

(a) 10 (b) 11 (c) 12 (d) 13

Answer: (c) 12.

Short Answer Questions

Q5. Name one activity associated with the monsoon season.

Using an umbrella or raincoat is common during the monsoon.

Q6. What comes right before the month of December?

November.

Q7. Name two seasons that occur in a year.

Summer and winter (answers may vary).

Q8. Why do people wear different clothes in summer and winter?

Because the weather is hot in summer and cold in winter, so clothing is chosen to stay comfortable in each season.

Word Problems

Q9. If today is the month of March, which season is it most likely to be, and what would you expect the weather to be like?

It is likely spring or early summer in many parts of India, with warmer and pleasant weather.

Q10. Arrange these months in the correct order: March, January, February.

January, February, March.

Q11. If a family is packing warm clothes and jackets for a trip, which season are they most likely preparing for?

Winter.

Why These Help

Practising season and calendar-related questions helps a Class 2 child connect maths and time concepts to real, everyday experiences like weather, clothing, and festivals throughout the year.
