NCERT Solutions for Class 5 EVS Chapter 6: Some Unique Places

Why This Chapter Matters

How to Use These Solutions

Chapter 6 of [Class 5 EVS, Our Wondrous World](#), Some Unique Places, follows Shanti's family on an adventure through India's diverse landscapes — islands, mangroves, the Western Ghats, and Northeast India.

NCERT Solutions for Class 5 EVS Chapter 6: Some Unique Places

What this chapter teaches.

The Andaman and Nicobar Islands in the Bay of Bengal, known for their unique marine life; the Western Ghats, a mountain range along India's western coast famous for its rich biodiversity of plants and animals; mangrove ecosystems — coastal forests that grow in salty water and protect shorelines; and the unique cultures and traditions of Northeast India.

Activity 1 — Follow Shanti's Family.

Children follow Shanti's family's journey through the chapter, noting what makes each place they visit special.

Activity 2 — Map India's Unique Places.

Children mark the Andaman and Nicobar Islands, the Western Ghats, and Northeast India on a map of India.

Activity 3 — Why Are Mangroves Important?

Children discuss how mangrove forests protect coastlines and support marine life.

Why This Chapter Matters

Exploring India's unique landscapes builds appreciation for the country's natural heritage and the importance of protecting these special ecosystems.

How to Use These Solutions

Look up pictures of the Andaman Islands, the Western Ghats, or Northeast India together to make these unique places feel real. Download the full chapter from our [Class 5 EVS NCERT book page](#), or browse the [Class 5 hub](#).
